

REAL TIME COMMUNICATION SYSTEM POWERED BY AI FOR SPECIALLY ABLED

Differently Abled is often described in terms of lack of normal functioning of physical, mental or psychological processes. It is also defined as learning difficulties or difficulties in adjusting socially, which interfaces with a person's normal growth and development. By understanding their problems, we can create a better solution for their lives. For our project, we are getting surveys from specially abled persons to understand what they truly needed to have a normal life.
